

NASA SEWP VI Ordering Guide

NASA SEWP VI Overview

NASA SEWP provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and supports more than 50,000 orders a year. SEWP is composed of three (3) scope categories detailed below. You may contact SEWP directly to see if your requirement is within scope by sending an email to help@sewp.nasa.gov.

- Category A - ITC/AV Solutions
- Category B - Enterprise-Wide ITC/AV Service Solutions
- Category C - Mission-Based ITC/AV Service Solutions

Ordering Process

NASA SEWP is a decentralized contract vehicle and the processes and forms for issuing purchase requests (PRs) and delivery orders (DOs) are defined by the issuing agency. The Agency's procurement officer issues a DO using any valid Federal Agency DO form. The NASA SEWP Program Management Office (PMO) does not issue DOs. The PMO reviews, processes, and tracks issued DOs and forwards them to the Contract Holders. Modifications must also route through the PMO.
